

Congratulations on your purchase of the Andrea Superbeam® Array Microphone Array 2S!

The Andrea Superbeam® Array Microphone 2S is a far-field, 2-microphone array with stereo output and offers the highest quality and performance of a low cost upgrade over a single element microphone.

Features include:

- Small size for unobtrusive mounting on a monitor or laptop.
- Specifically designed for use with Andrea's AudioCommander® software running on the host processor to enable untethered:
 - Continuous Speech Recognition
 - Command and Control
 - Voice over IP Internet Telephony

Visit www.andreaelectronics.com/software.html to download Andrea's AudioCommander® software.

C46-5338B

Visit www.andreaelectronics.com to enhance your SuperBeam Array 2S with Andrea's PureAudio USB-SA Digital Audio Adapter. With the adapter, you will receive Andrea Electronic's AudioCommander® and PureAudio® state-of-the-art software which includes:

AudioCommander®

- A virtual dashboard to audio features and functions.
- 10-band graphic equalizer with built-in presets.
- Microphone volume control with audio enhancements.
- Basic voice recorder.
- Software compatible with: Windows XP, Vista and 7 operating systems.

PureAudio®

- Patented noise reduction speech enhancement algorithm.
- Designed for hi-fidelity sound quality and compatible with speech recognition software.
- Reduces repetitive background noise on both acoustic and electronic system noise.
- Can be utilized on microphone output and received earphone audio.
- Software compatible with: Apple OSX and Windows XP, Vista and 7 operating systems.

DSDA Adaptive Beam Forming

- High directional microphone pickup.

EchoStop®

- Full duplex acoustic echo cancellation.

VoiceCenter®

- Digital recording device.
