Congratulations on your purchase of the Andrea NC-181VM USB-C Headset!

The product features, state-of-the-art, noise canceling microphone technology that removes background noise for optimal intelligibility. Users receive:

- Andrea microphone technology in a high-fidelity headset that can be easily folded flat for convenient storage
- A quality metal flex boom which keeps the microphone accurately positioned in place
- Increased speed and accuracy of PC speech-driven applications
- Cable module with earphone volume control and microphone on/off mute switch.

CONNECTING THE HEADSET TO YOUR COMPUTER:

1. Plug the headset USB type C connector into a USB slot on your computer.

2. Fit the adjustable headband over your head to secure the headset with the speaker resting comfortably on your ear and the temple pad about one to two inches over the other ear. Note: The microphone boom can rotate to adapt to either the right or left side of your head.

3. Adjust the microphone boom so that the microphone is approximately 3/4" in front of your mouth, making sure that you are talking into the voice side of the microphone, indicated by the white dot.
