

Congratulations on your purchase of the Andrea Active Noise Cancellation PC Microphone ANC-300!

The Andrea Active Noise Cancellation PC Microphone ANC-300 features, state-of-the-art, Active Noise Cancellation (ANC) microphone technology that electronically removes background noise and echo speaker feedback for optimal voice recognition. Users receive:

- Active Noise Cancellation microphone technology in a comfortable, ergonomic Desktop/Hand Held design
- Desktop/Mute/Hand Held microphone switch that conveniently allows for conversations that do not disrupt computer telephony and speech-driven PC applications during operation and allow the user to use the ANC 300 in either Desktop or Hand Held modes

To connect the Andrea Active Noise Cancellation PC Microphone ANC-300 to your computer's sound card:

1. Plug the pink microphone jack (indicated by a microphone icon) into the "mic in" port as shown in this publication.

COMPATIBILITY

The ANC-300 is compatible with most major sound cards, computers and laptops.

C46-5237E

MICROPHONE INSTRUCTIONS

1. The ANC-300 can be used as either a Desktop Microphone or a Hand Held Microphone.

2. To use the ANC-300 in the Desktop mode, place the ANC-300 in its base as shown, and set the selector switch to the Desktop mode.

3. To use the ANC-300 in the Hand Held mode, remove the ANC-300 from its base, and set the selector switch to the Hand Held mode. Hold the ANC-300 so that the microphone is approximately 3/4" in front of your mouth as shown in this publication.

TROUBLESHOOTING

If you encounter the following problems:

Microphone does not record sound when using a voice-recording application.

- A. Check all connections.
- B. Bring the microphone closer to your mouth.
- C. Check input control for proper level in software.
- D. Check that microphone is not muted in the PC's microphone audio panel.

Visit www.andreelectronics.com to enhance your analog microphone with Andrea's PureAudio USB-SA Digital Audio Adapter. With the adapter, you will receive Andrea Electronic's AudioCommander® and PureAudio® state-of-the-art software which includes:
