

Congratulations on your purchase of the Andrea ARRAY2S Mic with USB-SA

The **Andrea ARRAY2S Microphone** is a far-field, dual element microphone with stereo output and offers the highest quality and performance of a low cost upgrade over a single element microphone.

Features include:

- Small size for unobtrusive mounting on a monitor or laptop.
- Stereo Recording

The **Andrea USB-SA Digital Audio Adapter** is a high fidelity external sound card device with stereo input and output.

The ARRAY2S can record in stereo when plugged into a computer with a stereo microphone 3.5mm socket or when connected to the computer with the included USB-SA stereo adapter.

CONNECTING YOUR ARRAY2S

1. Plug pink 3.5mm plug into microphone jack on your computer or if using the USB-SA, plug into the color coded pink jack.

CONNECTING YOUR ARRAY2S and USB-SA

1. Plug pink 3.5mm plug into pink microphone jack on the USB-SA, plug into the color coded pink jack.
2. Plug USB connector into USB slot on your computer.

TROUBLESHOOTING

Microphone does not record sound when using a voice-recording application.

- A. Check all connections.
- B. Check input control for proper level in software.
- C. Check that microphone is not muted in the PC's microphone audio panel.
